Experience the charm of Porta Nuova - Renovated apartment in Piazza Principessa Clotilde

In the most iconic and contemporary heart of Milan, between Piazza Gae Aulenti and Piazza della Repubblica, we offer a charming renovated apartment located in a period building with an elevator on Via Vespucci.

The property, located on an intermediate floor, is striking for its brightness and rational distribution of spaces:

- Entrance
- Open kitchen
- Large living room with balcony overlooking one of the most characteristic streets in the area
- Two generously sized bedrooms, both with walk-in closets
- Two bathrooms with shower

The rational layout of the interior spaces, leaving no wasted square meters, enhances every room, creating modern, functional, and move-in ready spaces. The bathrooms are newly renovated, as is the new air conditioning setup throughout the home.

Independent methane heating ensures comfort and efficiency and significant savings on running costs.

Unparalleled location

Porta Nuova is the symbol of Milan's forward-looking lifestyle: design, architecture, and lifestyle come together in one of the city's most sought-after neighborhoods. Just steps from Corso Como, Brera, and Corso Garibaldi, with Garibaldi Station and Metro Station right on your doorstep.
